At Abrazo Arrowhead Campus we put our patient’s first. Your safety, and the quality of care you receive is at the forefront of everything we do. And when you put your patients first, the recognitions follow right behind. Whether it’s the 2014 50 Top Cardiovascular Hospital by Truven Health Analytics, or the Hospital Safety Score of “A” by The Leapfrog Group five times in a row (2012 - 2016), it speaks volumes to how we make you our TOP priority.
